

Owner Admin quick guide

Use the Examination Room Command Center to approve published exams and operate every room.

OWNER-ONLY AREA

The Admin Command Center is for DueDiligence.ph Founder and Super Admin owners, not ordinary staff or assistants.

THE FLOW

1. Inspect the published exam awaiting activation.

2. Verify the exact key and email delivery record.

Before approval

- Open the published exam and verify title, schedule, questions, points, and roster.
- Confirm the Professor account and destination email shown with the exam.
- Use Refresh if the request has just been published.

Approve and email

- Click Approve once; retry safely only if the page says it failed.
- Copy the exact generated key shown in Admin.
- Confirm email delivery to the Professor and configured owner copies.

Control, recover, and export

All Examination Room data stays visible to platform owners: exams, keys, identities, answers, grades, events, and recovery records.

THE FLOW

Keys and Email keeps the exact key visible to owners.

Direct controls

- See exact room keys, questions, answers, names, student numbers, grades, and release state.
- Correct identity and submission records with an immutable audit trail.
- Open or close a room and inspect incidents without coding.
- Use the on-screen recovery action for any failed operation.

Backup and export

- Load all pages before calling an export complete.
- Export exams, rosters, identities, submissions, answers, grades, incidents, and releases.
- Verify recovery snapshots before relying on them.
- Keep the latest downloaded export in owner-controlled storage.

Preflight before class

- Confirm room status, schedule, roster count, and exact key.
- Confirm Professor email and owner-copy delivery.
- Open the Professor test view and Student door once.
- Confirm recovery and export controls report Ready.
- If any check fails, resolve the stated error before opening the room.
